Martha is the daughter of Mr. and Mrs. William Jensen of this city and Wayne the son of Mr. Raymond Austin and the late Mrs. Raymond Austin of Lansing, Mich. Attached to the tiers of pearls in scallops and backed with lace was her fingertip length veil of imported French illusion. She carried a white prayer book topped with 7 white rose buds, entwined with ivy tied with a showed of satin ribbons and lovers knots.

Miss Freda Fry of Colorado Springs, Colorado, was the brides only attendant. She was dressed in a ballerina length gown of wedding blue velvet with a matching, cornet headpiece. She carried a bouquet of red Reuben Lilies.

Mrs. Jensen wore a dusty pink with navy accessories and a mauve colored orchid. Mrs. Bowerman, the bridegroom's foster mother, wore black and also had a mauve colored orchid.

Lloyd Austin of Lansing, brother of the bridegroom, was best man.

March Of Dimes In Full Swing In County

When polio walks into your front door and one of your children or a member of your family is stricken with the dreaded disease it does not come alone. Along with polio comes your National Foundation for Infantile Paralysis to offer financial aid and all of its available facilities for combating the disease.

And marching behind the National Foundation are all of the dimes that you and you and YOU have given and will again give when you open your hearts and your pocketbooks so willingly in the March of Dimes that is being conducted during the month of January in every city, town and village throughout the United States.

The March of Dimes in Crawford County has been successful in other years and we know that you will not fail us this year when more money than ever is needed to carry on the work that the National Foundation is doing—both here in our own community and everywhere else.

Some figures released by the Crawford County chapter of the National Foundation by Crawford county campaign director Carroll

Wert may startle us a bit, but when you've read them, open your hearts a little more and give generously for you've seen around you the people that have been helped by your dimes and little do you know it might be you instead of your neighbor that will be afflicted with the dreaded and paralyzing disease.

Crawford county's chapter of the National Foundation for Infantile Paralysis paid out \$3,297 last year for polio patient care of which \$2,375 was an advance from the National Foundation because the county chapter lacked the sufficient funds. Crawford county had 3 carry-over polio patients from 1952 and 4 new patients in 1953. The money paid out included 167 hospital days of patients care for only 2 out of the four patients. Two of the county's cases are still in the hospital under patient care. Carroll Wert, March of Dimes chairman this year announced today that he had named Jack Wilson to head the business donations while Ella Wilcox and Mrs. Lester Welch will lead the Porch Light Night in Grayling. Chairman for the various townships for Porch Light Night are still to be named. John MacAuley will head the drive in the county's schools with Eric Post in charge of the dime containers phase of the drive. A. J. Nelson and Dr. J. F. Cook will be chairman the special events with John H. Peterson in charge of the collection from the professional group. William Hines will chairmen the special gifts committee while Mr. Wert named Mrs. Robert Bovee and Robert Strong to head the publicity committee.

The drive for funds from labor will be headed by a chairman in each plant or place of large employment throughout the county. Those on the committee are: Alvin Moore, Garrett Bailey, Melvin Lucksted, Mrs. Carl Hanson, Robert Funk, Mrs. Russell Wright, Jerome Kessler, William Gohlack, Mrs. Cleo Snyder, Sam Gust, The Sisters of Mercy will seek funds from the hospital while Mr. Wert will handle donations from organizations.

Mr. Wert spoke first urging the Kiwanis Club to sponsor some type of a program during January for the benefit of the March of Dimes of which he is drive chairman this year. The Club has taken the idea under study.

Mr. Carson, president of Grayling Winter Sports and Mr. Stillwagon, chairman of the membership committee of Winter Sports spoke on the park and plans. Mr. Carson told of the addition of a practice ski slope at the park and the hiring of Stewart Atwell of Cass City as ski instructor and the installation of the new ski tow for the school slope. He also explained how the city office was aiding the winter sports program this year by handling the paper work and office procedure.

President William Joseph presided at the meeting prior to the program and introduced the club's newest member, Dr. Gerald Gibbons. Dr. Gibbons a former member of the Charlevoix Kiwanis Club has not been inducted as yet.

Local Coffee Goes To 10c

With the rise in the wholesale price of coffee, a cup of "java" is going to cost you a full dime in Grayling starting on Monday, January 18.

Wails from the "kaffee klatch" are expected to be heard in Grayling next week, but some brightness is always in the darkest cloud. If you lived in Detroit, Chicago or New York, it would be worse. Coffee is going to 15c a cup in those cities, it is said.

Local coffee houses who are going from 7c to 10c per cup next Monday are Grayling Restaurant, Dawson's, Hanson's Cafe, Hunter's Diner, Lone Pine Inn, Bad Hanson's and Failing's Restaurant.

BOY SCOUTS HAVE NEW MEETING PLACE

The Boy Scouts have moved to the old American Legion Hall and will meet there every Tuesday night at 7:00.

The Sportsman Hall grew too small, at the Legion the scouts will have the use of two rooms and thus have more space.

We all want to thank the board of the Sportsman Club for their hospitality for over a year. The American Legion is the sponsor of Grayling Boy Scouts and it is very natural that they should want to be with this organization.

What has kept the scouts from using the Legion Hall before was the bar, that now has been moved to the new location of the American Legion.

George Burke Lost - Rescued

George Burke, 83-year-old former Grayling mayor and Crawford County Supervisor is reported in "good" condition today after he had been hospitalized following his rescue last Friday morning at 1:00 a. m. in a swamp 14 miles west of Grayling where he became lost.

Crawford County Sheriff John Papendick said Burke was suffering slightly from exposure after being lost for about eight hours in below zero temperatures and 10-inch deep snow.

Burke, still active despite his years, and former mayor, councilman, and civic leader, left Grayling alone early last Thursday afternoon to inspect property he owns at Bear Lake, about 12 miles west in Kalkaska county, near the Crawford - Kalkaska county line. When he failed to return home after dark his housekeeper became alarmed and notified Sheriff Papendick.

Sheriff Papendick, assisted by Grayling Police Chief Harold Hatfield, J. Hurl Decker and Grover Cason, found that Burke had been seen turning off M-72 onto the Riverview road, about seven miles west of Grayling.

They found his car stalled in a woods trail about four miles off the main highway, where it had run out of gasoline. Following Burke's tracks through the deep snow, the officers found Burke in the swamp. Sheriff Papendick said that Burke had walked nearly three miles down the woods trail in his search for gas, apparently had lost the trail and was three-quarters of a mile in the swamp when located.

He was nearly exhausted, his feet were frostbitten and he was suffering from the bitter cold. When the officers found him and rushed him to the hospital.

SDA OLD BIBLE CONTEST CONTINUES

Crawford County's homes haven't gone completely modern; they still have a sentimental attachment for their old family Bibles. L. W. Hyde, pastor of the Seventh-day Adventist Church, reported that an Old Bible contest being conducted by the group has tapped a large reservoir of old-time religious feeling sometime hidden beneath the veneer of modern living.

More than 15 old Bibles have been entered in the contest thus far several of which are over 100 years old, the pastor said. Five old Bibles of varying dates are on display in the windows of Sales Five and Ten cent store, including the oldest that has been reported thus far. The exhibit contains both large and small Bibles. Bibles with old-time fasteners to hold them shut, and one has old-time print in which the s's look like f's.

The county-wide contest will continue until January 31 and participants with additional entries are asked to call the minister at 4888 or write him at 308 Park St. A qualified person will be sent on request to the individuals home to inspect the volume and record its characteristics. No need need give up his entry. He need only substantiate the date of its publication.

Award for owning the oldest Bible will be the new one, also in the exhibit in the Five and Ten cent store window.

No admission charge will be made but a collection to defray expenses will be taken during the game, it was said.

On Saturday night, January 23 the Bear Indies are slated to meet the Bay City Aetna Cement team. Last Saturday, the Grayling team lost to a flashy West Branch team there by five points. Grayling took an early lead but couldn't keep pace with the West Branch team's basket shooting.

Build Labor Camp In Zero Weather

The construction of the new Conservation-Correction Commission's new prison labor camp, west of Camp Lehman in the Hartwick Pines State Park area is proceeding in spite of sub zero temperatures and snowy winter weather. The new camp will be known as Camp LaVictoire and is located slightly over a mile north of M-95 between Grayling and Camp Lehman. A full 36 foot road with deep gutters and well graveled has been constructed into the camp site by the Crawford County Road Commission's heavy equipment and camp labor.

Temporary shelters and tool buildings have already been thrown up by the Camp Lehman crew under the direction of Lt. Milroy Johnson. Foundations for the new camp's main buildings have been dug and poured. Block laying on the buildings will be accomplished by the use of protective shelters and the stocking of stoves at the working site on a 24 hour basis.

Temperatures to 12, 14, 18 and 20 below zero have been recorded at the building site so far, but because of demands on myriad of Conservation projects near Grayling the camp building program will proceed.

and has announced that rates for membership have been set. The membership cards allow free admission to the park, free ski tow, free parking and skating. In fact most everything at the park will be free to the members but rental equipment and toboggan rides. The rates have been set as follows: Full family membership, which includes father, mother and all children, \$25 per year; man and wife membership only, \$20 per year; single membership, adult, \$15 per year and single membership, student, \$10 per year. When it is figured that entrance to the park is 25c each time and ski tow charge is \$1.50 per day, it is easy to see that the membership charges are very reasonable.

Chairman Stillwagon announces that memberships may be obtained at the park or in Grayling at Hunter's Diner, Olson's or the Avalanche. You need only stop at any of these four places and purchase your membership. You will be given a receipt for your money and a membership card will be issued to you by the secretary of Grayling Winter Sports which will entitle you to free privileges for this season.

A good crowd enjoyed the facilities of the Grayling park last week end in near perfect winter sports condition. Sunday was a bright, sunny day with the temperature down near ten degrees above zero. The snow conditions were excellent for skiing and saddle skiing and the cold temperature made the toboggans fast as lightning.

The warming house and food concession which were open all week end to the public were widely used both Saturday and Sunday. The new school ski slope and tow were crowded at all times and park instructor Stewart Atwell was very busy with skiing classes.

With its trend-setting advances... Ford's worth even more for '54

It's the Dividends that make it Worth More

RIDE DIVIDEND

New Ball-Joint Front Suspension

This revolutionary new suspension is the greatest chassis advance in 20 years... and it's exclusive to Ford in its field. It gives front wheels greater up and down travel to smooth out the going on rough roads. And it helps keep the wheels in true alignment for consistently easy handling. Movement of the wheels is on ball joints whether up and down, as wheels travel over rough spots, or in steering as wheels turn right or left. Ball joints are sealed against dirt and water.

DIVIDEND IN DRIVING EASE

Ford offers five optional power assists* you might expect to find only in America's costliest cars

Master-Guide power steering does up to 75% of your steering work, yet leaves you with natural steering "feel" on the straightaways. Swift Sure Power Brakes do up to one-third of the work in stopping. Fordomatic Drive gives torque converter smoothness and the "Go" of automatic mechanical gears. And only Ford in its field offers Power-Lift Windows, both front and rear, that open or close at a button's touch... and a 4-Way Power Seat that adjusts up and down, as well as front and back, at a touch of the controls. They're all worth-while optional extras available in the 1954 Ford!

*At extra cost.

P.C.A.

PERFORMANCE DIVIDEND

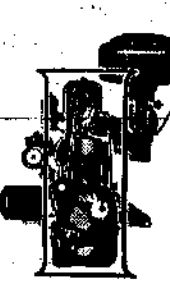

New 130-h.p. Y-block V-8

An extra-deep skirt extending below crankshaft gives greater rigidity for smoother, quieter operation, longer engine life. Free-turning overhead valves, low-friction design, Double-Deck intake manifold and high-turbulence combustion chambers give brilliant new responsiveness... 15% more power, greater economy.

New 115-h.p. I-block SIX

This new six has an extra-deep block for greater rigidity, smoother, quieter performance, longer engine life. Free-turning overhead valves, high-turbulence combustion chambers, low-friction design and Ford's Automatic Power Pilot help produce 14% more power... with lower performance on even less gas.

No car in the low-price field has ever offered so many "Worth More" features as the '54 Ford. In addition to all the features that have already established Ford as the "Worth More" car, you now get a host of brand new dividends. These include a choice of two new deep-block engines... the most modern engines in the industry. You also get Ford's new Ball-Joint Front Suspension... beautiful new interiors... and styling that will make your heart beat faster.

And, remember, Ford also makes available to you all the optional power assists... features you might expect to find only in the costliest cars.

If you have not yet seen the new Ford models for 1954, come in and inspect them today. Then Test Drive a '54 Ford... and once you do, you'll want to drive it home!

More than ever... THE STANDARD for THE AMERICAN ROAD

How Far? ? ?

"How far that little candle throws its beam," says an old poem. It could be paraphrased, if unpoetically, to read, "How far the consequences of a strike extend."

The New York newspaper strike, which deprived the world's second largest city of its principal media for information and advertising for 11 days, is a perfect example. Moreover, it illustrated how unique a place the newspapers hold in a community.

The strike was brought by a photoengravers' union which has 400-odd members employed on the major New York papers. Actually, only 207 votes were cast in favor of the strike, but it was a majority. The papers, of course, could have appeared without pictures but other unions honored the engravers' picket lines and made publication impossible.

As a result, some 20,000 people were temporarily forced out of work, and a very large payroll was temporarily suspended. And, on the publishers' side, a huge amount of holiday advertising business was lost.

This was only the beginning. To many stores, and especially those which major in phone and mail orders, the newspaper is the dominant factor in advertising. It is the only day-by-day medium for visually offering goods to vast numbers of potential buyers. No one will ever know how much retail business was lost because of the strike but many store executives are sure it was substantial. Time was bought on radio and TV stations. But these media are of only limited value to retailers for the most part and, on top of that, relatively little desirable time was available.

New York City has 10,000 newsstands and about 2,500 of them shut down entirely. All of the rest, naturally, suffered from the lack of papers to sell, which are the backbone of the business. A considerable proportion of the stands are one-man operations which at

best bring in very modest incomes to the owners.

The effects of the strike went far. For instance, a Wall Street Journal article pointed out what it did to the art and entertainment worlds. Two musicians had invested \$1,500 apiece to give recitals at Town Hall, in the hope that favorable reviews from the critics would lead to engagements elsewhere in this country and abroad. The music was played, and the critics were present—but there were no places for the reviews to appear. An artists' agent commented, "Good reviews here can make an artist's whole year profitable. Absence of reviews can be disastrous."

A play also opened during the strike—and no one knew whether it was a hit or a flop. Movie theatres and sports arenas had no effective means of publicizing their attractions.

Finally, of course, the public, which buys 5,000,000 copies a day of the New York papers, was discomfited. The news magazines diverted extra copies into the city, but there were not enough of them to meet the demand.

Whether or not the photoengravers' wage and other demands were justified is a matter of argument. But there can be no argument about the fact that the action of a very small number of people in a case like this can directly affect the lives of many millions.

Letters To The Editor

Vanderbilt, Michigan,
January 3, 1954.

Robert Strong, Editor
Crawford Co. Avalanche,
Grayling, Michigan.

Dear Bob:

This letter is to express my opinion regarding the recommendations of the newly organized Guides Association on proposed changes in the fishing laws.

I will go along with them on all but one, which is the closing of so much of the AuSable River to bait fishing. I am a fly fisherman but this proposal does not

strike me as the proper solution to the problem.

I will agree that bait fishing does cause a greater kill of small undersized fish than flies. Closing of the streams to bait would therefore save these fish. However, I believe the fly fishermen are guilty in many ways for the decrease in fish population. For many years it has been a common practice for the guides to assist their fishermen in catching their limits. In some cases that I know about they have let them return home with double limits or more. I am aware that in the past few seasons a good many of the guides have stopped this practice. Yet to me they are still partly responsible for the conditions of the streams. This is why I can not see denying the bait fishermen the right to fish and let the fly fishermen have all the glory.

I would like very much to have miles of stream which has been kept solely for the benefit of fly fishermen. The only trouble would be something called my conscience. I am afraid it would keep saying, "You think you are better than the bait fishermen. You have a stream saved for you and those who fish as you do." Who are we to say, "They don't fish according to our rules, the way we think it should be done; let them go elsewhere. This is our stream."

I believe such a law would mean loss of considerable business to many resorts along the river. I do not believe anyone has the right to cause them loss of business.

As I travel along the river I see many wonderful things. I see youngsters fishing along the bank. I see fathers and sons enjoying comradeship. I see the Scouts and many others enjoying this thing of nature. Does it make a difference whether they are using worms or flies? I don't think so. I know this is the way our streams should be used. I know many of these people can not afford the necessary equipment for fly fishing. Are they to be denied these pleasures for such a reason?

From the time that I was very small I was taught to share with others. I was taught that God made the heavens and the earth, the rivers and the oceans and all the wonderful things around us.

I am not arguing for the bait fishermen because he is a bait fisherman. I am arguing for him because he is God-made just like you and I. I am saying that in my heart I believe he has just as much right to these streams and their trout as you and I. I hope our conservation men will not take this easy solution

the Guides have proposed. I believe if they will look a little deeper they will find a solution which will be fair to everyone.

If anyone can prove me wrong I will gladly change my belief. I believe to do unto others as you would have them do unto you. I believe in fair play and equal rights. I believe in putting God in every day life. He shows no favors. I believe in Him.

Sincerely yours,
Bernard J. Fowler.
